

Lactutor Solution (Sudan)

Lactutor oral solution contains a laxative called lactulose. It makes the stool softer and easier to pass by drawing water into the bowel, and it is not absorbed into your body.

Dosage Form

Liquid

Route of Administration

Oral

Composition

Each 15 ml contains:

- Lactulose Concentrate I.P. Equivalent to Lactulose 10 gm
- Palatable Base q.s.

Indications

- Relief of constipation by softening stools and facilitating bowel movements.
- Management of hepatic encephalopathy, as prescribed by a healthcare professional.

Storage

Store below 30°C, protected from direct sunlight. Keep the bottle tightly closed and out of reach of children. Follow the storage instructions printed on the product label.

Precautions

- Use as directed by a healthcare professional.
- Do not exceed the prescribed dose.
- Drink adequate fluids while using this medicine, unless otherwise advised by your doctor.
- Consult a doctor if severe abdominal pain, persistent diarrhoea, or vomiting occurs.
- Inform your doctor if you have diabetes or a history of bowel obstruction.
- Keep out of reach of children.

Presentation

120ml, 240ml bottle with smart calibration pack.
