

Torque's Montor-LC Kid Syrup

Montor-LC syrup is a combination of Montelukast Sodium and Levocetirizine. Montelukast Sodium is a selective and orally active leukotriene receptor antagonist that inhibits the cysteine leukotriene (CysLT1) receptor. Levocetirizine is a third-generation non-sedative antihistamine developed from the second-generation antihistamine Cetirizine. Chemically, Levocetirizine is the active enantiomer of Cetirizine.

Dosage Form

Syrup

Route of Administration

Oral

Composition

Each 5 ml contains:

- Montelukast Sodium B.P. Equivalent to Montelukast 4 mg
- Levocetirizine Dihydrochloride U.S.P. 2.5 mg
- Flavoured Syrupy Base q.s.

Indications

- Relief of symptoms associated with seasonal and perennial allergic rhinitis.
- Helps relieve sneezing, runny nose, nasal itching, and watery eyes associated with allergies.
- Prevention of seasonal allergic rhinitis symptoms, as prescribed by a physician.

Storage

Store in a cool, dry place. Protect from light. Keep the bottle tightly closed and out of reach of children. Shake well before use.

Precautions

- Use only as directed by a physician.
- Contraindicated in patients with known hypersensitivity to Montelukast, Levocetirizine, Cetirizine, or any other component.
- May cause drowsiness; use caution when performing activities requiring alertness.
- Do not exceed the prescribed dose.
- Consult a healthcare professional if symptoms persist or worsen.

Presentation

- **Unit**: 60 ml bottle in a unit carton.
- **Outer**: 12 bottles in a shrink pack.
- **Shipper**: 192 bottles (16 shrink packs) in an unprinted shipper.
