

# Pantomac-D Tablets

Pantomac-D combines Pantoprazole and Domperidone to treat dyspepsia and gastro-esophageal reflux disease (GERD).

## Dosage Form

Tablet

## Route of Administration

Oral

## Composition

Each enteric-coated tablet contains:

- Pantoprazole Sodium Sesquihydrate eq. to Pantoprazole I.P. 40 mg
- Domperidone I.P. 10 mg

## Indications

Dyspepsia and gastro-esophageal reflux disease (GERD).

## Storage

Store in a cool, dry place, protect from light.

## Precautions

Swallow the tablet whole with water. Do not chew or crush. Take each dose one hour before a meal, at around the same time every day. Proton pump inhibitors can cause acute kidney injury as an adverse drug reaction.

## Presentation

10x10 tablets.
