

Alox Antacid Suspension

Alox Antacid Suspension combines Magnesium Hydroxide, Aluminium Hydroxide Gel, and Activated Dimethicone to treat acidity, heartburn, indigestion, gastritis, and stomach upset. Available in flavour variants of cardamom, saunf, and orange.

Dosage Form

Suspension

Route of Administration

Oral

Composition

Each 5 ml contains:

- Magnesium Hydroxide I.P. 200 mg
- Dried Aluminium Hydroxide Gel I.P. 200 mg
- Activated Dimethicone I.P. 25 mg

Indications

Used in gastrointestinal disorders manifested with hyperacidity (heartburn, epigastric discomfort) often associated with dyspepsia, peptic ulcer, gastritis, peptic esophagitis, hiatus hernia, and increased gas production.

Storage

Store in a cool, dark place. Protect from light.

Precautions

Use with caution in patients with renal impairment. Extensive use of aluminium-containing antacids may cause hypophosphatemia, which in severe cases may lead to muscle weakness, anorexia, and osteomalacia. Shake well before use.

Presentation

170 ml bottle.
