

Amtorque-5 Tablets

Amtorque-5 Tablets contain amlodipine which is a calcium ion influx inhibitor of the dihydropyridine group.

Dosage Form

Tablets

Route of Administration

Oral

Composition

Each uncoated tablet contains:

- Amlodipine Besilate Eq. to Amlodipine I.P. 5 mg
- Excipients q.s.

Indications

Indicated for the treatment of hypertension and angina pectoris. Also helps reduce the risk of fatal coronary heart disease, nonfatal myocardial infarction, stroke, coronary revascularization procedures, and hospitalization due to angina in patients with coronary artery disease.

Storage

Store protected from light and moisture at a temperature not exceeding 30°C.

Precautions

Use with caution in patients with severe hypotension, heart failure, or liver impairment. Blood pressure should be monitored regularly during treatment. Inform the physician about all medications being taken, as amlodipine may interact with several drugs. Do not discontinue therapy without medical advice.

Presentation

10 X 15 Tablets
