

Cipromac-500 Tablets

Cipromac-500 tablet is a synthetic broad-spectrum antibiotic that is effective against a wide range of bacteria.

Dosage Form

Tablets

Route of Administration

Oral

Composition

Each film-coated tablet contains:

- Ciprofloxacin Hydrochloride 500 mg
- Excipients q.s.

Indications

Indicated for the treatment of urinary tract infections, respiratory tract infections, skin and soft tissue infections, bone and joint infections, gastrointestinal infections, and certain sexually transmitted infections caused by susceptible bacteria.

Storage

Store below 30°C.

Precautions

Use with caution in patients with a history of tendon disorders, seizures, or other neurological conditions. Avoid taking with dairy products or supplements containing magnesium, aluminium, calcium, iron, or zinc, as these may reduce absorption. Maintain adequate hydration during treatment and complete the full prescribed course as directed by the physician.

Presentation

10x30 tablets
