

Cold-Go Suspension

Cold-Go Suspension is a paediatric formulation combining paracetamol, phenylephrine, and chlorpheniramine for relief from cough, cold, and allergy symptoms.

Dosage Form

Suspension

Route of Administration

Oral

Composition

Each 5 ml contains:

- Paracetamol I.P. 125 mg
- Phenylephrine HCl I.P. 5 mg
- Chlorpheniramine Maleate I.P. 1 mg

Indications

Used for the relief of common cold and allergy symptoms such as sneezing, runny or blocked nose, fever, headache, body ache, nasal congestion, and watery eyes.

Storage

Store in a cool and dry place, away from sunlight.

Precautions

As directed by the physician. Contraindicated in patients with known hypersensitivity to any of the ingredients. May interact with monoamine oxidase inhibitors, digoxin, anticoagulants, cetirizine, clonazepam, and alprazolam. Use with caution as it may cause drowsiness, dizziness, or nervousness. Shake well before use.

Presentation

60 ml bottle
