

Scabimac Lotion 60ml

Scabimac lotion combines Permethrin and Cetrimide to treat scabies and pediculosis, providing both insecticidal and antiseptic action.

Dosage Form

Lotion

Route of Administration

Topical

Composition

- Permethrin 5.0% w/v
- Cetrimide I.P. 0.01% w/v
- Aqueous Lotion Base q.s.

Indications

Indicated for the treatment of scabies caused by Sarcoptes scabiei mites. Also provides antiseptic protection against associated bacterial skin infections.

Storage

Store at a temperature not exceeding 25°C. Do not freeze.

Precautions

For external use only. Avoid contact with the eyes and mucous membranes; rinse thoroughly with water if accidental contact occurs. Discontinue use if signs of hypersensitivity or allergic reactions such as rash, swelling, or severe itching develop. Consult a healthcare professional before use during pregnancy or breastfeeding. Avoid excessive exposure to sunlight during treatment.

Presentation

60 ml bottle
