

Torglobin Syrup 225ml

Liver extract is rich in vital nutrients, including energy-producing B-vitamins and serves as an excellent source of proteins, and is capable of stimulating the production of red blood cells. Peptones are derived from animal milk, or meat digested by proteolytic digestion and are used in nutrient media for growing bacteria and fungi. Iron and ammonium citrate is a food additive with E number E381 used as an acidity regulator. Folic acid is a form of water-soluble vitamin B9 and is a critical factor in synthesizing nucleic acid (DNA & RNA). It is vital for the production of healthy red blood cells.

Dosage Form

Syrup

Route of Administration

Oral

Composition

Each 5 ml contains:

- Proteolyzed Liver 200 mg
- Derived from not less than 1.2 g of fresh liver having Vitamin B12 activity equivalent to 0.8 mcg
- Peptone 200 mg
- Iron & Ammonium Citrate 53.4 mg
- Equivalent to Elemental Iron 11.48 mg
- Folic Acid 0.17 mg

Indications

- Hyperproteinaemia and related conditions
- Pregnancy and lactation
- Post-surgery
- Childhood
- Convalescence
- Old age
- Other debilitated states

Storage

Store in a cool place. Protect from light.

Shake well before use.

Precautions

- Oral iron may aggravate peptic ulcers, regional enteritis, and ulcerative colitis.
- Iron compounds taken orally can impair the absorption of tetracycline antibiotics.
- Antacids given concomitantly with iron compounds may decrease iron absorption.

Presentation

225 ml bottle
