

Eye-Wet Eye Drops 10ml

EyeWet eye drops is a lubricating ophthalmic solution designed to alleviate dryness and discomfort in the eyes. The active ingredient, carboxymethylcellulose, forms a soothing film on the ocular surface, enhancing moisture and providing relief from symptoms associated with dry eyes.

Dosage Form

Liquid

Route of Administration

Ocular

Composition

Each ml contains:

- Carboxymethylcellulose Sodium I.P. 0.5% w/v
- Sterile aqueous vehicle q.s.

Indications

Used as a lubricant for dry eyes and for the temporary relief of burning, irritation, and discomfort due to dryness of the eyes.

Storage

Store in a cool and dry place away from direct sunlight.

Precautions

Remove contact lenses before use and wait at least 15 minutes before reinserting them. Consult a healthcare professional before use if you have an eye infection or other eye condition. Temporary blurred vision may occur; avoid driving or operating machinery until vision is clear. Do not use if the solution has changed colour or contains particles.

Presentation

10 ml vial
