

Fiximac-50 Dry Syrup

Fiximac-50 dry syrup is a third-generation cephalosporin antibiotic used to treat various bacterial infections.

Dosage Form

Dry Syrup

Route of Administration

Oral

Composition

Each 5ml of reconstituted suspension contains:

- Cefixime Trihydrate U.S.P.
- Equivalent to Anhydrous Cefixime 50 mg

Indications

Indicated for the treatment of a wide range of bacterial infections affecting the ear, nose, throat, respiratory tract, urinary tract, gastrointestinal tract, skin, and soft tissues. It is also used in the treatment of uncomplicated typhoid fever in children and adolescents.

Storage

Store at room temperature, away from light.

Precautions

Use only as directed by the physician. Contraindicated in patients with known hypersensitivity to Cefixime, cephalosporins, or any component of the formulation. Caution should be exercised in patients with a history of penicillin allergy, kidney impairment, or gastrointestinal disorders. Concomitant use with live vaccines, antacids, H2 blockers, probenecid, nephrotoxic drugs, warfarin, or oral contraceptives may affect treatment outcomes. Complete the full prescribed course of therapy.

Presentation

30 ml bottle
