

Fungnil Cream

Fungnil Cream contains Clotrimazole, a broad-spectrum antifungal agent effective against various skin infections caused by fungi and yeasts. It works by inhibiting fungal growth, providing relief from itching, redness, and irritation associated with conditions like ringworm, athlete's foot, and candidiasis.

Dosage Form

Cream

Route of Administration

Topical

Composition

Each gram contains:

- Clotrimazole I.P. 1% w/w
- Cream Base q.s.
