

Gencin-B E/E Drops 10ml

Gencin-B eye/ear drops is a medication that combines the anti-inflammatory effects of betamethasone, with the antibacterial actions of gentamicin. This combination is used to treat various inflammatory eye or ear conditions, such as infections or allergies, by reducing inflammation and controlling bacterial growth.

Dosage Form

Eye/Ear Drops

Route of Administration

Topical

Composition

Each ml contains:

- Gentamicin Sulphate eq. to Gentamicin Base (3000 units/ml) I.P. 0.3% w/v
- Betamethasone Sodium Phosphate 0.1% w/v
- Benzalkonium Chloride Solution (as preservative) 0.02% w/v
- Sterile Aqueous Buffered Vehicle q.s.

Indications

Used for the treatment of bacterial eye infections and ear infections associated with inflammation.

Storage

Store in a cool, dry place. Protect from light.

Precautions

Avoid use in patients with hypersensitivity to gentamicin or any component of the formulation and in patients with fungal infections. Do not touch the dropper tip to any surface to prevent contamination. Discontinue use and consult the physician if irritation persists or worsens. Use the solution within one month after opening.

Presentation

10 ml bottle
