

Ketomac Shampoo

Ketomac Shampoo is a topical antifungal treatment containing Ketoconazole, used to manage dandruff, seborrheic dermatitis, and fungal scalp infections.

Dosage Form

Shampoo

Route of Administration

Topical

Composition

Each 100 ml contains:

- Ketoconazole I.P. 2% w/v
- Shampoo Base q.s.

Indications

Indicated for dandruff (pityriasis capitis), seborrheic dermatitis, tinea versicolor, and fungal infections of the scalp.

Storage

Store in a cool, dry place.

Precautions

Rinse thoroughly to prevent contact with the eyes; flush with water if accidental contact occurs. Consult a healthcare professional before use during pregnancy or breastfeeding. Individuals with liver disease should inform their healthcare provider before use. Inform your healthcare provider about all medications being taken, as ketoconazole may interact with certain drugs. Follow the recommended dosage and duration of use.

Presentation

110 ml bottle
