

Luliprotec Cream 30g

Luliprotec cream is a topical antifungal medication used to treat fungal skin infections by inhibiting ergosterol synthesis, disrupting fungal cell membranes, and relieving associated symptoms.

Dosage Form

Cream

Route of Administration

Topical

Composition

Each g contains:

- Luliconazole I.P. 1.00% w/w
- Cream Base q.s.

Indications

Luliprotec cream is used to treat ringworm of the body (tinea corporis), ringworm of the groin (tinea cruris, jock itch), and ringworm of the foot between the toes (interdigital tinea pedis, athlete's foot).

Storage

Store at a temperature not exceeding 25°C. Do not freeze.

Precautions

For external use only. Avoid contact with eyes, nose, mouth, and other mucous membranes. Do not apply to broken, damaged, or irritated skin. Wash hands before and after application. Discontinue use and consult a physician if irritation, redness, or allergic reactions occur. Use the medicine for the full prescribed duration even if symptoms improve earlier.

Presentation

30 g tube.
