

Minoxigain F 5% Topical Solution

Minoxigain F 5% is a lipid-based topical solution that combines two scientifically proven agents for the treatment of androgenetic alopecia (male pattern baldness): Minoxidil, a potent vasodilator that stimulates hair follicles to promote regrowth, and Finasteride, a 5α-reductase inhibitor that reduces scalp dihydrotestosterone (DHT), the primary hormone responsible for hair loss.

Dosage Form

Liquid

Route of Administration

Topical

Composition

Each ml contains:

- Minoxidil I.P. 5% w/v
- Finasteride I.P. 0.1% w/v
- Base q.s.
