

Montor-LC Kid Syrup

Montor-LC syrup is a combination of Montelukast Sodium and Levocetirizine, providing dual relief from allergy symptoms in children through leukotriene receptor antagonism and antihistamine action.

Dosage Form

Syrup

Route of Administration

Oral

Composition

- Montelukast Sodium equivalent to Montelukast 4 mg
- Levocetirizine Dihydrochloride 2.5 mg
- Flavoured Syrupy base q.s.

Indications

Relief of symptoms of allergic rhinitis (seasonal or perennial) and as prophylaxis in seasonal allergic rhinitis.

Storage

Store in a cool & dry place. Protect from light. Shake well before use.

Precautions

Use with caution in patients with a history of hypersensitivity to montelukast, levocetirizine, or cetirizine. This medicine may cause dizziness, headache, or fatigue; caution is advised while performing activities requiring alertness. Consult a healthcare professional before use in patients with kidney impairment. Use during pregnancy or breastfeeding only under medical supervision. Keep out of the reach of children.

Presentation

60 ml bottle
