

No Scars Cream With Pump

No Scars cream combines hydroquinone, tretinoin, and mometasone to treat melasma and other forms of hyperpigmentation, improving skin tone and texture.

Dosage Form

Cream

Route of Administration

Topical

Composition

- Hydroquinone U.S.P. 2% w/w
- Tretinoin B.P. 0.025% w/w
- Mometasone Furoate I.P. 0.10% w/w
- Cream Base q.s.

Indications

Indicated for hyperpigmentation disorders such as melasma, post-inflammatory hyperpigmentation, sun-induced hyperpigmentation, and acquired hyperpigmentation associated with ageing or environmental factors.

Storage

Store in a cool and dry place. Do not freeze.

Precautions

Use only under the supervision of a qualified healthcare professional. Prolonged use of hydroquinone may cause ochronosis (bluish-black skin discoloration). Use adequate sun protection, as hydroquinone and tretinoin can increase sensitivity to sunlight. Follow the prescribed application schedule and avoid excessive use. Discontinue use and consult a healthcare professional if severe irritation occurs. Inform your healthcare provider if you are pregnant, planning pregnancy, or breastfeeding.

Presentation

10 gm, 20 gm, & 30 gm tubes
