

Paracin Injection 4ml

Paracetamol also known as Acetaminophen, chemically named N-Acetyl-p-Aminophenol, is a widely used over-the-counter analgesic and antipyretic. Paracetamol is equal to aspirin in analgesic and antipyretic effectiveness, and it is unlikely to produce many of the side effects associated with aspirin and aspirin-containing products.

Dosage Form

Injection

Route of Administration

Intravenous (IV)

Composition

Each 4 ml contains:

- Paracetamol I.P. 600 mg

Indications

For the short-term treatment of pain, particularly post-operative pain, and fever when oral administration is not possible.

Storage

Store below 25°C. Protect from direct sunlight. Keep out of reach of children.

Precautions

- Use with caution in patients with liver disease or impaired liver function.
- Avoid concurrent use of other medicines containing paracetamol to prevent overdose.
- Administer only under medical supervision.
- Do not use if the solution contains visible particles or is discoloured.

Presentation

4 ml Injection
