

Terbofin-OC Ointment

Terbofin-OC cream combines Terbinafine and Mometasone to treat fungal skin infections accompanied by inflammation, such as ringworm, jock itch, and athlete's foot.

Dosage Form

Cream

Route of Administration

Topical

Composition

- Terbinafine Hydrochloride 1.0% w/w
- Mometasone Furoate 0.1% w/w
- Cream Base q.s.

Indications

Indicated for dermatophyte infections such as tinea corporis (ringworm), tinea cruris (jock itch), and tinea pedis (athlete's foot). Helps relieve redness, itching, burning, and inflammation associated with fungal skin infections.

Storage

Store at a temperature not exceeding 30°C. Protect from light. Do not freeze.

Precautions

For external use only. Avoid contact with the eyes and mucous membranes. Prolonged use of corticosteroids may cause skin thinning and other local adverse effects. Use with caution on the face, groin, and other sensitive areas. Consult a healthcare professional before use during pregnancy or breastfeeding. Keep out of reach of children.

Presentation

15 gm tube.
