

Toractin Syrup

Toractin syrup contains Cyproheptadine Hydrochloride, used as an appetite stimulant and for relief of allergic conditions such as rhinitis, conjunctivitis, and urticaria.

Dosage Form

Syrup

Route of Administration

Oral

Composition

Each ml contains:

- Cyproheptadine Hydrochloride 2 mg

Indications

Mainly used as an appetite stimulant, for prophylactic treatment of pediatric migraines and suppression of vascular headaches, and for symptomatic relief of perennial and seasonal allergic rhinitis, vasomotor rhinitis, allergic conjunctivitis, allergic reactions to blood or plasma, allergic pruritic symptoms, mild uncomplicated urticaria and angioedema, dermographism, and adjunctive anaphylactic therapy.

Storage

Store in a cool, dry, and dark place. Shake well before use.

Precautions

Monitor for dizziness and excessive drowsiness. Administer with food if gastrointestinal upset occurs. Measure and administer the prescribed dose using a dosing syringe, spoon, or cup.

Presentation

100 ml and 200 ml bottles in duplex board cartons.
