

Torex-DX Syrup

Torex-DX cough syrup features a chlorpheniramine and dextromethorphan combination, providing targeted relief for dry cough symptoms. It is also used to treat sneezing, a runny nose, and a cough caused by the common cold.

Dosage Form

Syrup

Route of Administration

Oral

Composition

Each 5ml contains:

- Dextromethorphan Hydrobromide I.P. 10mg
- Chlorpheniramine Maleate I.P. 2mg
- Flavoured Syrup Base q.s.

Indications

Used in the treatment of dry cough, sneezing, runny nose, and cough associated with the common cold and allergic conditions.

Storage

Store at a temperature not exceeding 25°C. Protect from sunlight, heat, and moisture.

Precautions

Use only as directed by the physician. Contraindicated in patients with known hypersensitivity to any ingredient of the formulation. May cause dizziness, drowsiness, blurred vision, dry mouth, loss of appetite, or nausea. Use caution while driving or operating machinery. Avoid concomitant use with monoamine oxidase inhibitors (MAOIs) and consult your physician before taking other medications. Do not exceed the recommended dosage.

Presentation

100 ml bottle
