

Torformin 1000 SR

Torformin 1000 SR Tablets contains Metformin, a biguanide with antihyperglycaemic effects, lowering both basal and postprandial plasma glucose.

Dosage Form

Tablet

Route of Administration

Oral

Composition

- Metformin Hydrochloride I.P. 1000 mg
- Excipients q.s.

Indications

Torformin 1000 SR is indicated for the management of Type 2 Diabetes Mellitus in patients whose blood glucose levels are not adequately controlled through diet, exercise, and a single antidiabetic agent. It helps improve glycemic control and supports long-term diabetes management.

Storage

Store at a temperature not exceeding 30°C, protected from light & moisture.

Precautions

Use this medicine only under the supervision of a physician. Regular monitoring of blood glucose levels and kidney function may be required during treatment. Inform your doctor about any history of kidney, liver, or heart disease before starting therapy. Avoid excessive alcohol consumption while taking this medicine. Do not stop or alter the prescribed dosage without consulting your healthcare provider.
