

Torque's Telmitor 40

Torque's Telmitor 40 Tablets contain Telmisartan, an angiotensin II receptor antagonist used to treat hypertension and reduce the risk of cardiovascular events.

Dosage Form

Tablet

Route of Administration

Oral

Composition

Each uncoated tablet contains:

- Telmisartan 40 mg
- Excipients q.s.

Indications

Telmitor 40 Tablets are indicated for the treatment of hypertension (high blood pressure). By helping to lower blood pressure, they reduce the risk of serious cardiovascular events such as stroke, heart attack, and other complications associated with uncontrolled hypertension.

Storage

Store protected from light and moisture, at a temperature not exceeding 30°C.

Precautions

Use this medicine only under the supervision of a physician. Regular monitoring of blood pressure and kidney function may be required during treatment. Inform your doctor if you have liver or kidney disorders, heart disease, or are taking any other medications. This medicine is not recommended during pregnancy or breastfeeding. Do not stop taking the medication without consulting your healthcare provider.

Presentation

10 × 2 × 15 Tablets
