

Torque's Timox-CV Dry Syrup

Timox-CV Dry syrup is a combination of Amoxycillin and Clavulanic Acid that helps to treat bacterial infection.

Dosage Form

Dry Syrup

Route of Administration

Oral

Composition

Each reconstituted suspension contains:

- Amoxycillin Trihydrate I.P. equivalent to Amoxycillin 200 mg
- Potassium Clavulanate Diluted I.P. equivalent to Clavulanic Acid 28.5 mg
- Excipients q.s.

Indications

Indicated for the treatment of bacterial infections of the ear, nose, throat, respiratory tract, lungs, skin, teeth, and urinary tract caused by susceptible microorganisms.

Storage

Store protected from light and moisture at a temperature not exceeding 25°C.

Precautions

Use only as prescribed by the physician. Contraindicated in patients with known hypersensitivity to amoxycillin, clavulanic acid, penicillins, or any component of the formulation. Caution is advised in patients with a history of allergic reactions, liver impairment, or kidney disorders. Complete the full prescribed course of treatment even if symptoms improve earlier. Discontinue use and seek medical advice if signs of severe allergic reactions occur.

Presentation

30 ml bottle of reconstitutable dry syrup.
