

Torvit 12 Injections

The B group of vitamins is involved in the development and maintenance of the nervous system (brain and nerves) and the formation of blood cells. Vitamin C is an antioxidant and is responsible for maintaining healthy cell structure and producing an important protein, known as collagen, which is found in the skin, bone, cartilage and tendons.

Dosage Form

Injection

Route of Administration

Intramuscular (IM) / Intravenous (IV)

Composition

Each 1.5 ml (Part I) contains:

- Vitamin C I.P. 150 mg
